Intent

North Huron Family Health Team (NH FHT) has adopted this policy to ensure that its employees are provided with authorized time off as per applicable legislation without fear of a negative impact on their employment status or opportunities with the organization. NH FHT is committed to providing a work-life balance for its employees and understands that situations can and will arise that call for immediate, emergency leave.

This policy covers instances where employees may need to take planned/unplanned leave of absence in order to attend to situations that directly affect their families or dependents.

Pregnancy and Parental Leave

Pregnancy and parental leave are provided to permit employees of NH FHT to have authorized time off that coincides with the birth or adoption of a child. The leaves have been designed to allow employees to recover from childbirth, bond with, and care for their newborn or adopted children, without fear of a negative impact on their employment status or any opportunities with NH FHT. Information contained in this section has been derived from Ontario's *Employment Standards Act, 2000*, Part XIV, Leaves of Absence.

Employees that have become a new parent in the following regards shall be eligible for either pregnancy, or parental leave.

Pregnancy Leave

- Biological birth mother

Parental Leave

- Mother
- Father
- Adoptive Parent
- Domestic Partner

Qualifying for Pregnancy/Parental Leave

A new parent or pregnant employee is entitled to pregnancy/parental leave whether he or she is a full-time, part-time, permanent or contract employee provided that she/he:

- Works for an employer that is covered by the ESA;
- Was hired at least thirteen (13) weeks before the date the baby is expected to be born (the "due date"); or
- Was hired at least thirteen (13) weeks before commencing the parental leave.

Request for Pregnancy/Parental Leave Procedure

To ensure that NH FHT can make the necessary arrangements to accommodate an employee taking pregnancy or parental Leave, employees are required to provide at least two (2) weeks' notice before embarking on pregnancy or parental Leave.

This is to help NH FHT procure staffing solutions and alleviate any additional work stress on other employees that may occur as a result of the employee's absence.

Submission of a request for pregnancy/parental leave must be accompanied by the appropriate documentation.

Employees are expected to give four (4) weeks' notice regarding their expected date of return to work or their letter of resignation if they choose not to return to work. (Insert Title of Appropriate Authority) should be contacted as soon as possible in the event of any changes to their leave.

Duration of Leave Parameters

Pregnancy Leave

- Pregnant employees have the right to take up to seventeen (17) consecutive weeks (or longer in certain circumstances) of job-protected unpaid time off work.
- Usually, the earliest a pregnancy leave can begin is seventeen (17) weeks before the employee's due date. However, when an employee has a live birth more than seventeen (17) weeks before the due date, she will be able to begin her pregnancy leave on the date of the birth.
- The latest a pregnancy leave can begin is on the baby's due date. However, if the baby is born earlier than the due date, the latest the leave can begin is the day the baby is born.
- Pregnancy leave can last a maximum of seventeen (17) weeks for most employees. However, if an employee has taken a full seventeen (17) weeks of leave but is still pregnant, she may continue on the pregnancy Leave until the birth of the child.

Parental Leave

- New parents have the right to take parental leave when a child is born or first comes into their care.

- Birth mothers who took pregnancy leave are entitled to up to sixty one (61) weeks' leave.
- Birth mothers who do not take pregnancy leave and all other new parents are entitled to up to sixty three (63) weeks of parental leave.
- Parental leave is not part of pregnancy leave and so a birth mother may take both pregnancy and parental leave.
- The right to parental leave is independent of the right to pregnancy leave.
- All other new parents must begin their parental leave no later than seventy eight (78) weeks after the date their baby is born; or the date their child first came into their care, custody, and control.
- The parental leave does not have to be completed within this seventy eight (78) week period. It just has to be started.

A birth mother who takes pregnancy leave must ordinarily begin her parental leave as soon as her pregnancy leave ends. However, an employee's baby may not yet have come into her care for the first time when the pregnancy leave ends. For example, perhaps her baby has been hospitalized since birth and is still in the hospital's care when the pregnancy leave ends.

In this case, the employee can either commence her leave when the pregnancy leave ends or choose to return to work and start her parental leave later. If she chooses to return to work, she will be able to start her parental leave anytime within seventy eight (78) weeks of the birth or the date the baby first came home from the hospital.

Any employee that elects not to use the maximum amount of leave available shall not have the option of taking any unused leave time at a later date.

Once the employee has started maternity or parental leave, the employee must take it all at one time and cannot split it up.

Miscarriages and Stillbirths

An employee who has a miscarriage or stillbirth more than seventeen (17) weeks before her due date is not entitled to a pregnancy leave. However, if an employee has a miscarriage or stillbirth within the seventeen (17) week period preceding the due date, she is eligible for pregnancy leave. The latest date for commencing the leave in that case is the date of the miscarriage or stillbirth.

The pregnancy leave of an employee who has a miscarriage or stillbirth ends on the date that is the later of:

- Seventeen (17) weeks after the leave began; or
- Twelve (12) weeks after the stillbirth or miscarriage.

This means that the pregnancy leave of an employee who has a stillbirth or miscarriage will be at least seventeen (17) weeks long. In some cases it may be longer.

Use of Sick Leave Benefits, Vacation and/or Family Medical Leave

In the event that an employee requires use of sick leave benefits at any time prior to the commencement of a pregnancy/parental leave period, the NH FHT Sick Leave Policy shall apply.

After the pregnancy/parental leaves have concluded, employees shall be allowed to use up any unpaid vacation time, and/or sick days.

In the event that a NH FHT employee requires an extension of leave following a pregnancy leave, the employee may use his or her family medical leave up to a maximum of eight (8) weeks, where medically substantiated.

Employees that elect to extend their leave through the use of accrued vacation time are required to comply with the NH FHT Vacation Policy, and provide four (4) weeks' notice, prior to the exhaustion of the leave.

NH FHT employees that elect to extend their leave through the use of family medical leave are requested to provide NH FHT with as much advance notice as possible prior to the exhaustion of pregnancy leave.

Family Medical Leave

Family medical leave is unpaid, job-protected time off work for up to twenty eight (28) weeks. This leave is provided to enable employees who have a family member (or people the employee considers to be like family members) with a serious risk of passing away within a period of twenty six (26) weeks. The medical condition and risk of death must be confirmed in a certificate issued by a qualified health practitioner.

The twenty eight (28) weeks of a family medical leave do not have to be taken at the same time. Employees must inform senior Management at NH FHT prior to the start of the leave, as soon as they are aware of the need.

Family medical leave will normally be authorized to cover the duration of the initial situation. However, NH FHT understands that some situations may require greater time to remedy. Generally, it is up to the supervisor's discretion to determine the length of the extended leave, as well as whether the leave will be paid or unpaid. In certain circumstances, the employee may use a combination of paid leave, unpaid leave, annual vacation time, or parental leave (if applicable).

If the amount of leave taken in the initial leave period is less than twenty-eight (28) weeks, it is not necessary for a qualified health practitioner to issue an additional certificate in order for more leave (commencing after the conclusion of the initial leave period) to be taken.

Family medical leave shall have no impact on an employee's current salary or benefits. Performance objectives and goals for the employee will be adjusted so that they will not be penalized for being absent during peak hours. Employees are legally protected from dismissal, termination, selection for redundancy, or any other detriment to employment for making appropriate and authorized use of this policy.

If two (2) or more employees qualify to take the leave in order to provide care for the same person, the leave must be divided amongst those taking the leave.

If an employee takes family medical leave and the family member or other individual does not die within the fifty-two (52) week period beginning when the medical certificate is issued, the employee may take another leave, in accordance with the ESA.

Personal Emergency Leave

Personal emergency leave (PEL) is job-protected time off work for up to ten (10) days per calendar year. The first two (2) used days of the leave are paid leave with the remaining eight (8) unpaid. NH FHT will pay the first two (2) days of the leave at the amount prescribed by legislation unless the employee has been employed for less than one (1) week, in which case the two (2) days will not be paid. The two (2) paid days must be taken first in a calendar year before any of the unpaid days can be taken, unless the employee has been employed for less than one (1) week.

The ten (10) days of personal emergency leave do not have to be taken all at once; however, NH FHT counts any part of a day taken off as a full day of personal emergency leave. This leave may be taken for personal illness, injury or medical emergency or for the death, illness, injury, medical emergency or urgent matter relating to a dependent or family member. Emergency leave is not intended for scheduled routine doctor/dentist/other health practitioner visits.

For personal emergency leave, the employee must inform NH FHT that he or she will require a leave before it begins, or as soon as possible. There will likely be circumstances where the employee contacts his or her supervisor on extremely short notice to explain that they are not able to attend work that day because of a crisis. Supervisors will approve requests that fall under the provisions listed within the *Employment Standards Act, 2000*. Situations that do not meet the

required provisions will be determined on a case-by-case basis. (Please see the Bereavement Policy for further information on Personal Emergency Leave and the death of a family member).

Personal Emergency Leave Pay

Employees who take paid personal emergency leave days will be paid in accordance with the *Employment Standards Act, 2000*.

Declared Emergency Leave

- Declared emergency leave may be extended beyond the initial period of absence due to an order made under the *Emergency Management and Civil Protection Act*.

Requesting Declared Emergency Leave

Employees who take declared emergency leave must advise NH FHT that they will be doing so as soon as possible. If an employee begins the leave before advising NH FHT, the employee must advise the company of the leave as soon as possible after starting it.

NH FHT may require an employee taking declared emergency leave to provide evidence reasonable in the circumstances at a time that is reasonable in the circumstances that the employee is entitled to the leave.

In order to be eligible for reservist leave, the employee must have worked for NH FHT for at least six (6) consecutive months.

Employees on a reservist leave are entitled to be reinstated to the same position if it still exists or to a comparable position if it does not. Seniority and length of service credits continue to accumulate during the leave. NH FHT is not

required to continue any benefit plans during the employee's leave; however, employees can provide payment in advance of the leave to cover the cost of the benefits so that they may continue while on the leave.

Organ Donor Leave

Employees who have been continuously employed by NH FHT for thirteen (13) weeks are entitled to take unpaid, job-protected leave from work for the purposes of organ donation.

The organ donor leave must begin on the date of the surgery, although it may begin earlier where a medical practitioner specifies an earlier date in a written certificate. The employee may take leave for up to thirteen (13) weeks, although in cases where the doctor declares that the employee is not able to resume his/her work, an additional period of time will be granted. The maximum period of the extended leave is thirteen (13) weeks.

Employees taking organ donor leave must provide NH FHT with a minimum of two (2) weeks' notice of their intention to take the leave. Employees must provide a medical certificate confirming the reasons for and the expected duration of the leave.
